

Hydra 50

Corrosion Resistant Fitting (CRF) version available

Hydra 50

The Dramm Hydra Multi-spray Hydraulic Sprayer is a high volume hydraulic sprayer capable of performing a variety of tasks. The Hydra is perfect for the application of insecticides, fungicides, growth regulators, fertilizers, disinfectants and other chemicals.

With a pump output of 4 gallons per minute, the Hydra offers enough volume to utilize a choice of guns and agitate the tank at the same time. The pump has a maximum operating pressure of 550 psi with a fully adjustable regulator. This allows for a variety of droplet sizes and spray distances. The Hydra uses a

close-coupled pump to eliminate belt or chain maintenance and is run by a sealed 1.5 horse power electric motor.

The standard gun offers a choice of patterns with an output of 1.3 gallons per minute. Different nozzle tips are available for lower or higher flow rates. Other gun options include the Dramm L-5 Lance and the Dramm MS-Trigger Gun.

The Hydra comes standard with a 50 gallon tank on a maneuverable cart with rear casters for easy turning when full. The unit includes 150 feet of hose on a variable drag reel.

Specifications

Tank size - 50 gallons

Hose Length - 150' standard/200' or 250' available

Maximum Pressure - 500 PSI

Pump Design - Triplex Piston Pump

Dimensions - L: 50 W: 27 H: 50

Maximum pump output - 4 gpm

Voltage - 115v/208-230v

Amperage - 13.6a/7.5-6.8a

Motor RPM - 1750 rpm
