

WC50 Water Cart

BigFoot™ option available

WC50 Water Cart

The Dramm WC50 Watering Cart is designed for portability and ease of use. Utilizing a battery powered pump and Dramm's durable, portable Hydra™ Cart, the WC50 can pump more than 300 gallons of water on one full charge.

The WC50 comes as a complete unit. A 50 gallon tank and powder coated steel cart, non-marking, locking

front casters and solid wheels make up the cart design. The 12 volt 17ah battery is enclosed in a watertight plastic enclosure. The battery operated pump has an output of 4.9 gallons per minute and is connected to a 25 ft. hose with a Dramm One Touch™ wand, offering fingertip control of watering. The Water Cart includes an on-board charger for overnight charging of the unit. Available with pneumatic tires as BigFoot option for turf and rough terrain.
