

hvacLINK

Smart Climate Control Made Simple

The hvacLINK is a smart thermostat designed to automate HVAC systems, integrating with the Growlink platform for precise climate control. It offers efficient cooling and ventilation with day/night settings and centralized management.

Key Features:

- **Day and Night Settings:** Optimized temperature control for different times of day.
- **Low-Voltage Compatibility:** Easy replacement for standard thermostats.
- **Centralized Control:** Seamless integration with the Growlink platform.
- **Durable Design:** Reliable in high humidity grow environments, with optional DIN rail mounting for easy installation.
- **Plug-and-Play Design:** Quick to set up and simple to use in any grow environment.

Specifications:

Input Power

Voltage: TBD

Max. Current: TBD

Working Environment

Temp: 32°F-140°F

Humidity: 0-80%RH
(Non-Condensing)

Functionality

Inputs:

(1x) Terminal Block for 24VAC Power (R & C Terminals)

(1x) RJ-45 Ports for Connection to HUB

Outputs:

(1x) Terminal Block for (6x) Relays

- Relay Output Labels TBD

Package Content

hvacLINK 1pc

Mounting Screw Kit Bag 1pc

10 ft. RJ-45 Cable 1pc

Mini Screwdriver 1pc

Package Dimensions

Size: 7.75" / 197mm (L) x
7.75" / 197mm (W) x
3.75" / 96mm (H)

Gross Weight TBDoz/TBDg

 Made in the USA
