

powerLINK

Smart Control for Any Outlet

The powerLINK provides independent control for a single 120VAC, 15-amp device, connecting seamlessly to your Growlink system via Wi-Fi. With flexible options for manual, scheduled, and sensor-triggered control, it ensures reliable, automated management of your grow equipment.

Key Features:

- **Independent Outlet Control:** Manage a single 120VAC, 15-amp device with precision.
- **Wi-Fi Connectivity:** Easily connects to your Growlink system for centralized management.
- **Flexible Operation Modes:** Supports manual, scheduled, or sensor-triggered control to meet your needs.
- **Energy Efficient:** Helps optimize energy use by automating equipment operation.
- **Plug-and-Play Design:** Quick to set up and simple to use in any grow environment.

Specifications:

Input Power

Voltage: 120-240VAC, 50/60Hz

Current: 15A

Working Environment

Temp: 50-104°F (10-40°C)

Humidity: 0-95% RH
(Non-Condensing)

Functionality

Inputs:

120VAC Plug for Use in US
Electrical Receptacle

Outputs:

120VAC US Plug
(From the Device that is to be
controlled)

Package Content

powerLINK 1pc

Package Dimensions

Size: 4.5" / 114mm (L) x
2.75" / 70mm (W) x
3.125" / 80mm (H)

Gross Weight TBDoz/TBDg

 Made in
the USA
