Weight	300 pounds
Power	115V, single-phase
Amperage	4.4 amps
Warranty	one year

**TWO STAGE OPERATION PROVIDES
DEHUMIDIFICATION and 2.5 TONS OF
COOLING FROM ONE UNIT**

Details

This all aluminum, commercial-grade air conditioner and dehumidifier removes over 700 pints of water per day from air in your building. The unit was designed for growers with the help of ClimaGrow R&D. In cooling mode it delivers 2.5 tons of air conditioning at 55 to 60F leaving temperature. In dehumidification mode night humidity control to 50%rh can be provided to buildings or air processes. Dry air is supplied at near 70 degrees Fahrenheit. A detachable humidistat allows you to set the desired humidity level.

Features

- Thermostat controlled cooling
- Humidistat controlled drying
- Stainless steel: drain pan and 3/4 inch drain coupling
- 1,000 cfm (nominal) supply air blower
- Quiet operation, low static (ductable)
- Detachable commercial humidistat
- Made in the USA
- Designed for commercial use
- Auto defrost allows operation in cool buildings
- HVAC technician friendly design
- Connects to standard 5 ton air conditioner condenser unit
- 2-inch pleated MERV 3 through 13 air filter compartment
- Aluminum skid with forklift pockets and corner eyes
- Cabinet constructed from pre-painted aluminum sheet metal
- Reheat condenser delivers air near room temperature
