

Inspired by Craft Growers

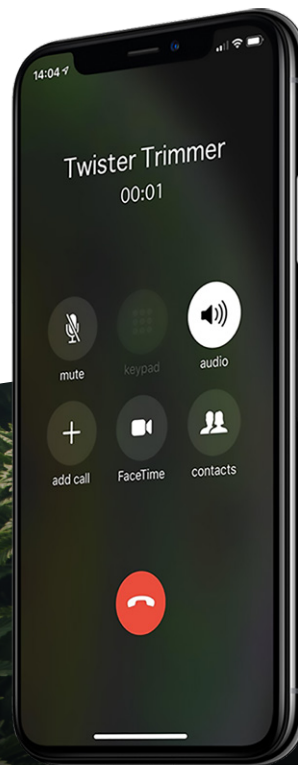

We know that there's inspired artistry in your work and hard work in your art. When it comes time to harvest, time is money, and having efficiency in your workflow matters.

Gently trim your harvest with a single employee at an industry leading 88 lbs/hr.

| Type | Feed (lbs/hr) | Feed (kg/hr) |
|------------|-----------------|-----------------|
| Dry | Up to 88 | Up to 40 |

batchONE

Trims More. Silently.

Built specifically for cultivators who prefer dry trimming and a batch-style workflow, now bringing you the industry's leading throughput and trim quality in a mobile unit.

Cannabis is your Craft...

Which is why we focused on all the small details. Everything from the ease of loading and unloading from both sides, a brush to knock buds off the tumbler, and 360° swivel casters to make portability a dream.

Need to get through a standard 32" door? No problem we've thought of that too.

It Isn't Quality If You Compromise

Built with craft cultivators in mind, The BatchOne focuses on being a functional, user-friendly, cost-effective batch trimmer. The quick tumbler removal design makes it simple to clean your BatchOne. We know storage space is limited, the bins used to capture your trim used for extraction are food-grade, stackable, and nestable to allow for simple storage.

TESTED

Features

- Single person operation
