Pollen Tumbler

by BUBBLE MAGIC

Motor Replacement

Motor Replacement Instructions

TOOLS

Wire Cutter

Wire Stripper

Screwdriver

7mm Wrench or scocket and ratchet

2.5mm Hex Wrench (supplied with unit)

Step 1

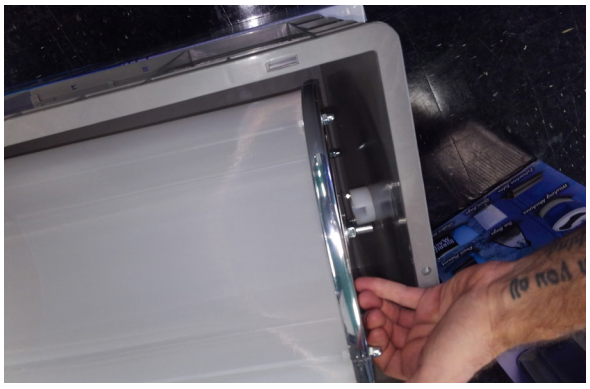

Loosen the set-screw on the drive-lock and slide it away from the drum.

Step 2

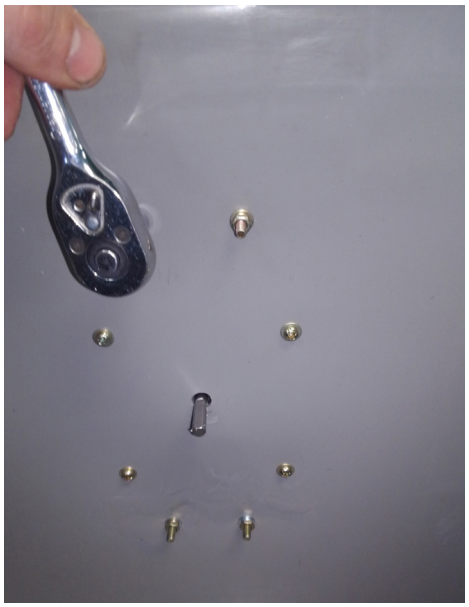

Pull the drum and the drive-lock from the unit.

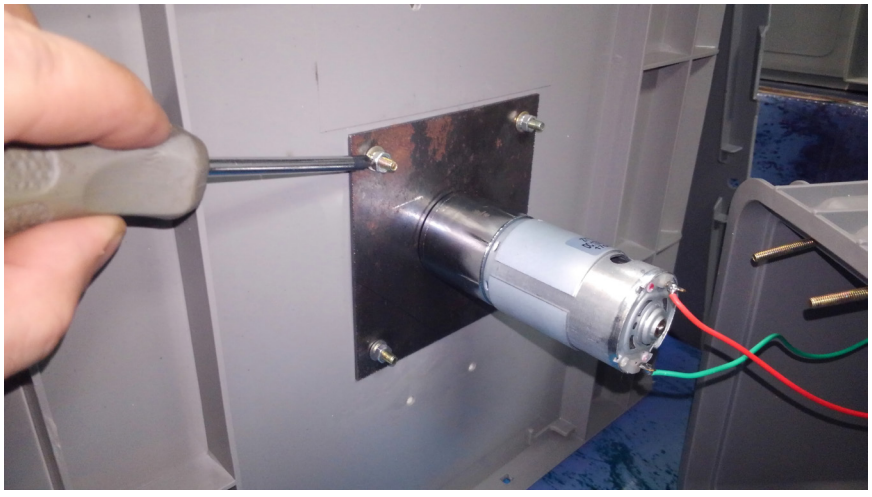

Step 3

Remove the 4 bolts holding motor cover in place.

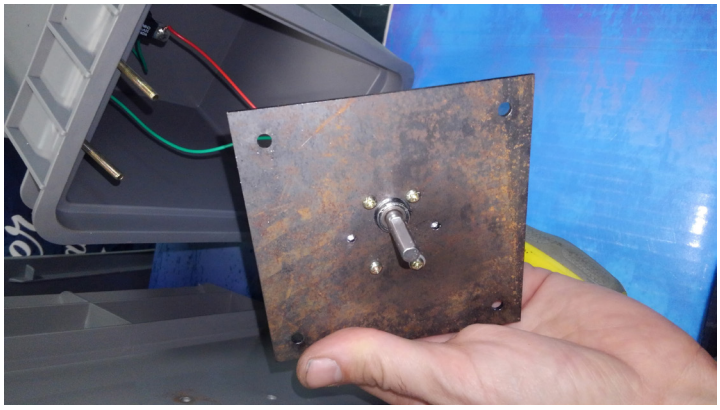

Step 4

Remove the 4 bolts holding the motor support plate in place.

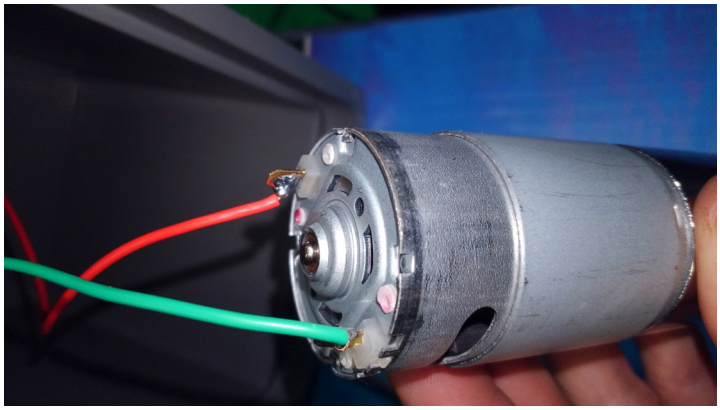

Step 5

Remove the 4 screws attaching the motor to the motor support plate.

Step 6

Cut wires from malfunctioning motor and wire in new motor

Step 7

Reassemble unit. Note: Motor direction may have been reversed, but this will not affect pollen tumbler performance.
