Sapphire

COMMERCIAL IRRIGATION/MIST CONTROLLER WITH CLOUD

FEATURES & BENEFITS

- **8 Independent outputs** to control multiple zones with one controller.

- **Mist, pulse and irrigation control** for each output for flexible growing applications.

- **Multiple start and end times per day** to provide crop specific flexibility.

- **On/Off manual or timed override** allowing for simple changes when needed.

- **Simple mounting and plug-in power** for quick and easy installation.

- **Easy to program at the controller or remotely** from the cloud for convenient zone adjustments.

- **Cloud access** for easy monitoring and control via internet.

THE SIMPLE AND FLEXIBLE SOLUTION

The Sapphire is a commercial irrigation controller that is ideal for applications requiring misting, flood, drip or standard irrigation.
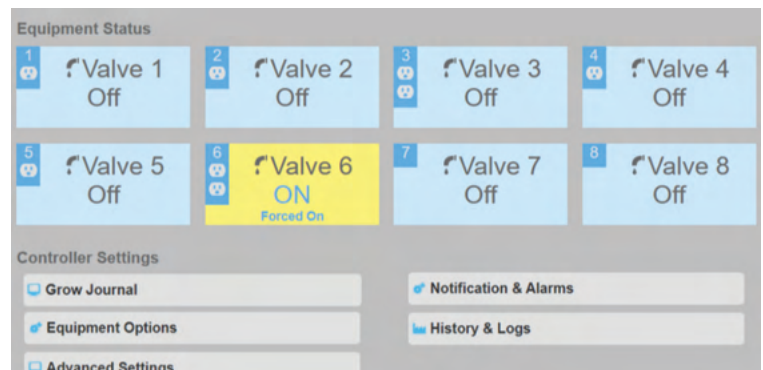

The controller comes with 8-outputs and provides cloud monitoring and control.

Easy to install and program, this controller allows the grower the flexibility of utilizing different irrigation methods with one controller.

With Cloud access, programming, monitoring and reporting is easily performed remotely. The newly implemented grow journal allows the grower the ability to add notes and tasks in the system to store grower logs and generate reports.

CLOUD INTEGRATION

- **Integrated Cloud with other Link4 cloud portals** designed to simplify overall access.

- **Cloud dashboard** for easy monitoring or editing each zone in one location.

- **Multiple device capability** allowing access through a variety devices and individuals.

- **Cloud Grow Journal** to receive, log and report grower notes for each zone.

Sapphire

APPLICATIONS AND USES

Standard Use application...
• Misting
• Pulsing/Flood systems...
• Standard irrigation
• Drip irrigation

Specialty applications
• Can tie into syphon injectors
• Great for flood table pulsing
• Any on/off timed equipment

Used in
• Indoor grows
• Greenhouses
• Outdoor nurseries
• Hydroponic systems
• Vertical farms

PRODUCT SPEC TABLE

Item Code	Dimensions	Weight	Voltage/Amps in	Voltage out
990-0910-00	8" x 10" x 3.5"	2.5 lbs	120 VAC 2 Amps	24VAC out Up to 1 amp/output Up to 2 outputs/time

Note: Optional larger 24V power supply available to run more outputs at one time
